PART B—SUBJECT INDEX

ORDER FORMS

INTRODUCTION

The Australian Bureau of Statistics is the official statistical organisation for the Federal and State Governments. Its main function is to collect facts from a wide variety of social and economic areas and to compile and disseminate them to interested users both within Government and the community in general.

The ABS publishes currently over 1800 statistical bulletins—either monthly, quarterly, half-yearly or annually under approximately 650 different titles.

How To Use This Catalogue

This ABS catalogue contains currently available statistical publications released by ABS State offices and the Central Office in Canberra. The catalogue is divided into two parts—A and B.

Part A lists all publications in numerical order except that *within each subject group* the Central Office entries precede the State Office entries (see description of numbering system below). Most publications issued by Central Office contain particulars for each State and Territory as components of Australian totals.

Part B contains a detailed subject index of all publications in alphabetical order. If you are interested in a particular subject area, e.g. overseas trade, employment, etc. you will find it convenient to identify the range of publications from the list of subject groupings on pages 7-9 and therefore to all publications within that subject. If you have a specific interest, e.g. the production of butter and cheese, industrial disputes, etc. check the detailed subject index beginning on page 123.

The ABS Catalogue Numbering System

The system consists of a five digit code (e.g. 5413.0).

The *first two digits* define the subject by nine broad areas (e.g. 5 represents National accounts, balance of payments and foreign investment, overseas trade, public finance, private finance) divided into nine more precise sub-divisions (e.g. 54 is overseas trade).

The *third and fourth digits* are the permanent serial numbers allocated to publications within categories formed by the first two digits. An allotted number will remain unchanged provided the contents of a bulletin remain essentially the same.

The *fifth digit*, after the full stop, relates to the office of ABS which issues the publication.

The codes for each issuing office are:

- 0 Central Office (Canberra)
- 1 New South Wales
- 2 Victoria
- 3 Queensland
- 4 South Australia
- 5 Western Australia
- 6 Tasmania

However, for some census bulletins the numbers 7, 8 and 9 are used to denote that a bulletin is issued in Central Office.

Within each subject group, all Central Office entries precede the State office entries.
